PROFESSIONAL SUMMARY

Full Stack Software Developer with hands-on experience designing, developing, testing, and maintaining modern web applications and RESTful APIs using JavaScript, TypeScript, React.js, Node.js, Express.js, PostgreSQL, and MongoDB. Proven ability to build scalable frontend interfaces and backend services, integrate third-party APIs, and write clean, well-documented, maintainable code. Experienced in Agile team environments with Git-based workflows, code reviews, and CI/CD pipelines. A self-driven, detail-oriented developer with strong debugging and problem-solving skills, passionate about building quality software that creates real impact across Africa.

TECHNICAL SKILLS

Frontend	Backend	Databases	Tools & Platforms	Practices
• React.js • React Native (Expo) • Next.js • JavaScript (ES6+) • TypeScript • Vue.js • HTML5 • CSS3 / SCSS	• NestJS • Node.js • Express.js • REST APIs • Prisma ORM • Authentication	• PostgreSQL • MongoDB • MySQL • Supabase • Neon Database	• Git & GitHub • Docker (familiar) • Postman • Netlify • DigitalOcean • Microsoft Azure • Nginx • PM2	• Agile / Scrum • CI/CD Workflows • Code Reviews • Debugging & Testing • API Integration • Version Control • Documentation

TECHNICAL PROJECTS

Beyond Sports Platform *(Team Project — Completed)*

Role: Frontend Lead & Technical Lead

Stack: React.js · React Native (Expo) · NestJS · Prisma ORM · REST APIs · PostgreSQL · DigitalOcean

- Designed and built modern web and mobile applications using React.js, React Native (Expo), NestJS, Prisma ORM, and REST APIs.
- Developed and maintained scalable RESTful APIs using NestJS with PostgreSQL database management via Prisma ORM.
- Built cross-platform mobile features using React Native (Expo), delivering consistent experiences on iOS and Android.
- Developed responsive web interfaces using React.js with third-party API integrations and authentication systems.
- Collaborated in an Agile team environment using Git-based version control, code reviews, and CI/CD pipelines on DigitalOcean.
- Debugged and resolved software defects across web and mobile surfaces, monitoring backend services using PM2 and Nginx.
- Contributed to application architecture, leaderboard functionality, and technical documentation throughout the project.

Mayondo Wood & Furniture Business System

GitHub: github.com/margret256/MAYONDOPROJECT

- Designed, developed, and maintained a full-stack enterprise business management system automating sales, stock tracking, and customer orders.
- Built scalable RESTful APIs using Node.js and Express.js with MongoDB, handling complex business logic and data relationships.
- Implemented secure Role-Based Access Control (RBAC) with JWT authentication and third-party API integrations.
- Developed responsive frontend interfaces using React.js, HTML5, and CSS3 translated from high-fidelity Figma mockups.
- Optimised application performance, resolved software defects, and maintained thorough technical documentation.
- Deployed to Netlify with full CI/CD workflow, ensuring reliable and consistent delivery of the application.

Grocery Buddy Web Application

GitHub: github.com/margret256/GRORECYBUDDY

- Built a full-stack responsive grocery management web application with authentication, personalised dashboards, and real-time inventory updates.
- Developed and integrated RESTful APIs with reusable frontend components using React.js, JavaScript, HTML5, and CSS3.
- Implemented CRUD functionality, debugged software defects, and optimised performance across browsers and devices.
- Maintained well-documented, clean code throughout the project with a focus on scalability and maintainability.

EDUCATION

Refractory Academy

Certificate of Apprenticeship in Software Engineering
Certificate in Software Engineering

Kampala, Uganda
2025 – 2026 / 2025

CERTIFICATIONS

Introduction to Microsoft Azure — 2025

Professional Soft Skills Certification — 2025

SOFT SKILLS

Problem-Solving & Debugging • Team Collaboration • Communication Skills • Adaptability & Continuous Learning • Time Management in Agile Environments
